Graduate Bulletin Information

The University of Denver Graduate Bulletin outlines Graduate School of Social Work program requirements. The advising and academic planning information in this manual is based on the [University of Denver Graduate Bulletin](#), which is specific to the academic year students are admitted to the program.

Section 1: Degree Requirements

Students at the Graduate School of Social Work will complete the requirements for the **Advanced Social Work Practice** degree program to earn their Master of Social Work (MSW) degree. The Advanced Social Work Practice degree program will prepare students with the theoretical knowledge, applied skills, and values to work across a continuum of services at individual, family, group, organization and community systems levels. Our model prepares students to practice with a wide range of populations and settings to meet the needs of your community.

The curriculum emphasizes culturally responsive practice needed for the increasing diversity within communities at a local, state, national or global context. Faculty expertise anchors a curriculum that encourages students to focus their degree in alignment with specific areas of interest or career goals. Practice courses are taught by instructors who are actively involved in community engaged social work. The combination of scholarship and applied expertise synergizes the learning experience.

GSSW has structured the curriculum to meet the Council on Social Work Education (CSWE) [2022 Educational Policy and Accreditation Standards](#) for MSW programs. Competency-based education rests on a shared view of the nature of competence in professional practice. Social work competence is the ability to integrate and apply social work knowledge, values, skills, and cognitive and affective processes to practice situations in a culturally responsive, purposeful, intentional, and professional manner to promote human and community well-being. Competency-based education is an outcome-oriented approach to curriculum design. Overall, professional competence is multi-dimensional and composed of 9 inter-related competencies:

- Competency 1: Demonstrate Ethical and Professional Behavior
- Competency 2: Advanced Human Rights and Social, Racial, Economic, and Environmental Justice
- Competency 3: Engage in Anti-Racism, Diversity, Equity, and Inclusion (ADEI) in Practice
- Competency 4: Engage in Practice Informed Research, and Research Informed Practice
- Competency 5: Engage in Policy Practice
- Competency 6: Engage with Individuals, Families, Groups, Organizations, and Communities
- Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities
- Competency 8: Intervene with Individuals, Families, Groups, Organizations, and Communities
- Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

For MSW students, the minimum total credits required for the Master of Social Work degree is 81. The requirement for Advanced Standing MSW students, who enter the program with a Bachelor of Social Work degree, is 54 total credits.

The information below outlines the courses required for MSW foundation requirements and Advanced Standing MSW prerequisite requirements, as well as the concentration overview of credits needed for all students.

Notes:

- All students may take up to 10 credits in another graduate school or through MSW@Denver toward degree through the [Visiting Student application](#)
- For a complete list of all courses in each category, please consult the [Course Planning Tools within the Student Resource Portal](#).
- GSSW advises that you do your degree requirement buckets in a scaffolded order. We encourage to follow the order as follows but note that this is not required. We have adjusted the number of course offerings each quarter based on this order:
 - Theory
 - Policy*
 - Assessment
 - Engage and Intervene with Individuals, Families and Groups
 - Engage and Intervene with Organizations and Communities
 - Research
 - Values
 - Electives taken each quarter

*We encourage you to take policy in Spring or Winter quarters to align with legislative session - this is not required for assignments)

Section 2: Pathway Information

This packet has shown you the overall requirements to obtain an MSW degree; adding a Pathway interest helps you think about how best to apply course content to align your interests and career aspirations.

Q: How do I use this Pathway option?

A: You have a choice to create a curriculum plan that is an Advance Social Work Practice degree, solely based on a variety of interests in each requirement area (Theory for Practice, Assessment Skills, Engage & Intervene: Organizations & Communities, Engage & Intervene: Individuals, Families, Groups, Policy & Advocacy Skills, Evaluation & Research, Values, and Electives) OR you could focus your curriculum toward an area of practice, population, or a social work setting that appeals to you and your career interests.

Q: If I choose a pathway, do I need to follow the course recommendations exactly?

A: No. Pathways are designed to give you flexibility for both your specific interests as well as course availability. If one of the classes that is suggested is not available or there is another course that interests you more, you may wait until another quarter or choose a different course that is listed within that category to fulfil the degree requirements. Pathways are *suggestions*!

Q: What if I want a specific type of license after my MSW degree?

A: You should consult the state licensing board for your particular area, such as LSW, LCSW, CAC, School Social Worker, etc. Some courses will be more geared toward specific types of social work practice. Think ahead about which courses would be best to take to meet your future licensure wants or needs. Consult the [Licensure page](#) in the MSW Student Resource Portal and reach out to GSSW Career Services team for more specific questions. You can also request to meet with an advisor [here](#) under the “Advising-Ways to Connect” tab.

Q: What if the courses I want are mostly listed in the “Electives” category?

A: If you are struggling to find courses that you want within the required categories, please check in with a faculty academic advisor using the ‘[Advising-Ways to Connect](#)’ tab on the MSW Student Resource Portal. Faculty academic advisors can help you think through how your interests may be represented within our current required course offerings or suggest electives that may be eligible for a waiver-substitution in some rare cases.

Q: What if I want to complete a certificate or stipend?

A: Review specific requirements associated with stipends, certificates, or dual degrees. Some courses may fulfill multiple requirements within the MSW degree. If a course is required for a certificate and meets one of the mandatory categories of the Advanced Practice Concentration curriculum, it can count towards the degree as well as the certificate/stipend requirement. The total number of credits per category and for the degree must still be met. For questions about stipends, certificates, or dual degrees, please visit the [MSW Student Resource Portal](#).

Q: What if I want to take a class within another program at GSSW?

A: Students in the Denver Campus, Four Corners, or Western Colorado programs may take classes as offered or cross listed between these 3 programs and may take up to 10 credits in the MSW@Denver program as a visiting student, as space allows. Additionally, students in these 3 programs may take up to 10 graduate course credits within any other institution within the University of Denver, with approval from an academic advisor and the course instructor. Students in the MSW@Denver program may take up to 10 credits in any other GSSW program.

Students enrolled in a dual degree program should consult their faculty academic advisor in both programs.

Aging Services & Policy Pathway

A pathway in Aging Services will prepare you for a career working with older adults and their families, or to lead change efforts related to aging services both locally and nationally. This course list is a recommendation and not a requirement. Any course we offer in the required category will fulfill degree requirements. Students interested in expanding their studies may also want to explore the opportunity to earn a [Master of Public Health](#) alongside the MSW degree. For more information about dual degree options, please visit the [Dual Degrees](#) page in the MSW Student Resource Portal. We recommend meeting with an academic advisor for additional guidance.

Section 4: GSSW Certificate & Stipend Overviews

GSSW students can further customize their learning by adding a certificate or stipend to their degree plan. The below information can be used in conjunction with information posted on the [MSW Student Resource Portal](#) page in order to determine if a stipend/certificate is right for you. Some stipends/certificates have strict deadlines associated with them; take care to submit all materials by posted deadlines. Noting your interest in a stipend/certificate in your GSSW application does not enroll you in a stipend/certificate program. Students must follow all directions to be considered for a stipend/certificate. We recommend you meet with an academic advisor for additional guidance.

Certificate and stipend programs are often directly tied to field internship. Consult your field advisor regarding eligible sites related to your area(s) of interest and the requirements of your selected certificate or stipend.

Certificate Options

1. Human-Animal-Environment-Interactions in Social Work (HAEI-SW) Certificate
2. School Social Work Certificate
3. Latinx Social Work Certificate
4. Global Social Work Certificate
5. Mental Health for Eco Resiliency and Adaptation Certificate

Scholarship Options

1. Colorado Child Welfare Scholarship

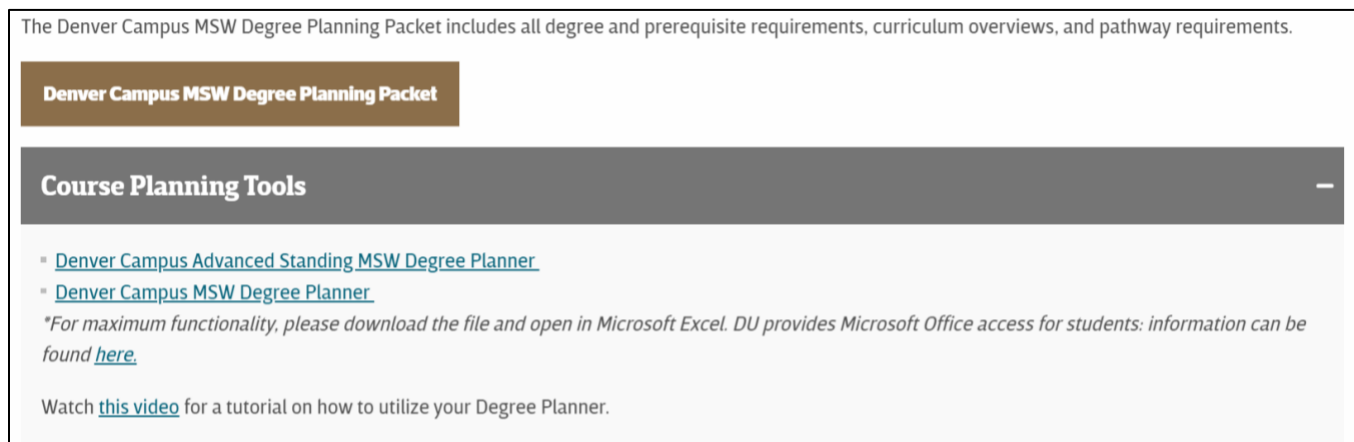

Section 5: Putting it All Together - Tracking Your Degree Progress

Track your progress towards degree completion as soon as you begin the program. Students are expected to complete foundation or advanced standing requirements as pre-requisite to the Advanced Concentration curriculum.

The best way to track your degree progress and to find a comprehensive list of course options within each required competency category is to use the GSSW Denver Campus Degree Planner and Degree Audit. The Degree Audit can be found on your student profile at my.du.edu > Student Resources > Degree Audit. The Degree Planner can be accessed on the [MSW Student Resource Portal](#) by navigating the following steps:

- 1) Academic Planning and advising page
- 2) Select Denver Campus
- 3) Select [Fall 2025 and After](#)
- 4) Expand the Course Planning Tools drop down (*see image below*).

The Denver Campus MSW Degree Planning Packet includes all degree and prerequisite requirements, curriculum overviews, and pathway requirements.

Watch [this video](#) for a tutorial on how to utilize your Degree Planner.

The Four Pillars of your MSW Degree:

- 1) Academic Course Work
- 2) Field Internship (Applied Practice)
- 3) Mentoring, Supervision, and Guidance
- 4) Adult Learner Mindset and Responsibility

Important Notes:

- Foundation course work and field internship must be complete prior to beginning concentration field internship. Please email field@du.edu with questions regarding field internships.
- Concentration field may not be taken in advance of concentration course work. No more than 9 credits of concentration course work can be outstanding upon completion of concentration internships.
- Independent studies, directed studies, international field internships, or any course work that deviates from the standard GSSW program, must be approved *prior* to engaging in alternative learning.
- It is critical to pay attention to the academic calendar for information regarding registration, add/drop, refunds, and various dates that may impact your financial aid and tuition.
- Interested in working with faculty regarding on-going research project - <https://socialwork.du.edu/research-faculty/active-research-projects>

Advising: Current and Active Denver Campus students are not assigned an academic advisor as the advising program is voluntary. All Denver Campus students have access to Faculty Academic Advising by placing a request. You are encouraged to connect with our Faculty Academic Advising Team for any needs related to degree planning or questions related to your academic experience at GSSW.

Advising Process:

1. Student completes “[Contact an Advisor](#)” survey which goes to denvercampusadvising@du.edu for processing.
2. Student may receive an email with needed information or will be sent to a Faculty Advisor to set up an appointment.
3. Advisors can help support any of the following needs:
 - a. Waiver or substitution form signature
 - b. Independent or Directed Study approval
 - c. Want to reduce or increase credit load or take a leave of absence
 - d. Guidance on course selection for specific career interests/professional development mentoring
 - e. Struggling with external responsibilities, health or mental health challenges impacting your work
 - f. Guidance on additional support or resources
